

# ULTIMATE PRECISION, **NO PERSPIRATION**

Take comfort and protection to the next level with **SHOWA 381** – our lightest microporous foam nitrile coated glove. Offering high abrasion performance, dexterity, finger sensitivity, grip and comfort, it's the ideal multipurpose solution.

### Enhanced Breathability

Microfiber liner absorbs perspiration and moisture almost instantly, **provides 20% more breathability** and moisture evacuation versus standard offering

### Exceptional Grip

Innovative embossed “s” shaped pattern channels liquids and oils away to ensure a secure grip in all conditions

### Increased Abrasion Resistance

Microporus foam nitrile coating provides abrasion resistance up to **level four (EN388)**
