

SHOWA SOLUTIONS

SHOWA's global Technical Services and Customer Service are available to answer any outstanding questions and give you the peace of mind in making your selection. SHOWA has Research and Development, Technical and Product Management teams strategically placed across the globe for immediate support.

As a premium service, SHOWA offers a free comprehensive analysis of your chemical-resistant glove usage, for example to help with the latest EN 374 compliance requirements. You receive a detailed report with glove recommendations based on their hazardous chemical usage. This program is designed to give the most cost-effective analysis and complete coverage of EN 374 requirements.

OUR PHILOSOPHY AT SHOWA

"Our mission is to protect workers needing hand protection whilst enhancing their ability to perform a multitude of tasks, keeping hands safe during and after work, SHOWA provides highly performing, durable and innovative solutions thanks to a corporate philosophy of investing in research and development to introduce the next generation of innovative hand protection improving user comfort, premium safety and satisfaction".

CHEMICALS
TESTED

KNOW YOU'RE PROTECTED

NO assumptions are allowed while dealing with hazardous chemicals.

The risks associated with chemical substances are numerous and their contact with the skin can cause burns, dermatitis, irritation and intoxication. The skin can be greatly damaged by such contact and wearing gloves is the only barrier that prevents hazardous contact with chemicals.

Chemical hazards are not confined to the chemical industry. Many people in a variety of sectors are faced with chemical risks when handling oils, acids and solvents. This can be while working either on drilling platforms, drawing mud, oil and benzenes from the sea bed, or in refineries where chemicals are even more prevalent.

Selecting the right chemical resistant glove for the job just got a lot easier with the launch of our redesigned, improved, and updated ChemRest website, the original and best-in-class Chemical Resistant Glove Directory.

Supported by our global network of manufacturing, research, and safety specialists, www.ChemRest.com offers expert analysis on over **300 chemicals**.

HOW TO USE CHEMREST

STEP 1:
Visit ChemRest.com then select your location and language.

STEP 2:
Search for either 1) the chemical name or CAS number you are interested in or 2) the glove you are using.

STEP 3:
Select the chemical, product, or CAS and hit search (multiple chemicals can be selected at once).

STEP 4:
See results for the related chemical information and the breakthrough time that it will take the selected chemical to reach your hand through the glove.

STEP 5:
Register for your free account and download your chemical data.

FIND THE RIGHT GLOVE

ChemRest.com is the world's first free, comprehensive chemical resistant research guide for hand protection. It features a user-intuitive navigation, an enhanced chemical search and the ability to compare various gloves against each other. Safety professionals can benefit from:

1. User-friendly chemical directory with 300 chemicals available
2. Free (on demand) testing for additional chemicals
3. Access to expert chemical data and resources in one place
4. Dedicated technical support
5. Cost-effective hand protection solution thanks to the accurate chemical glove selection and recommendation

30% of hand injuries are caused by wearing the wrong glove

U.S. Bureau of Labor Statistics 2012

"In a couple of clicks I can find exactly what I am looking for!"
- Gloria from TN

"ChemRest has the largest chemical data base that I have ever seen!"
- Isaac from NY
